TO-DAY'S GRAIN MARKETS.

Winnipeg, April 2.—The wheat market today has been held steady, with a tendency to weaken slightly. Liverpool opened bid higher, but under the influence of local weather in England and of the fact that the market was not so strong as yesterday's closing prices, they were not held and advanced. The market for the July future advancing more than the May and closing prices were 1/2 to 1/4 higher than yesterday's.
Our Winnipeg market was dull but firm, futures closing 1/2 to 1/4 higher yesterday. Lower grades 1/4 to 1/2 higher, there being a good demand for each wheat. Today's Winnipeg prices are: No. 1 Northern, 1.07 1/2; No. 2 Northern, 1.04 1/2; No. 3, 1.02 1/2; No. 4, 1.00 1/2; No. 5, 98 1/2; No. 6, 96 1/2; No. 7, 94 1/2; No. 8, 92 1/2; No. 9, 90 1/2; No. 10, 88 1/2; WANT CHANGE IN THE MECHANICS' LIEN ACT

Meeting of Calgary Business Men Interested Discuss Judge Beck's Recent Decision—Not Quite Sure What is Desired.

Calgary, April 1.—Yesterday afternoon, in the city hall, a most representative meeting was held to discuss the matter and form a definite program in connection with the recent state unsatisfactory conditions of the provincial lien law.

The audience was composed principally of lumbermen, supply men, contractors and architects, and more or less interested in the working out of a satisfactory lien law.

The main cause of the meeting was the recent decision delivered by His Honor Judge Beck in the case of Breckenridge & Land and Judge Beck's decision was to the effect that the people who were interested together to give consideration to the matter.

M. G. Morgan, as secretary of the Alberta Lumbermen's Association, moved that Ernest Butler, of the architect firm of Hodgson & Bates, occupy the chair.

Mr. Butler, in opening the meeting, explained the provisions of the lien law, which he described as being in a most unsatisfactory state.

He had read it and studied it, and as he did so the more unsatisfactory it appeared to be. The decision of the court in reference to it were most contradictory.

Meaning of Decision. The decision of Judge Beck in the Breckenridge & Land case put an entirely new complexion on the act. According to that decision, contractor might sue for the lien and get a \$20,000 judgment, and the lien law which could be used on material would be for the \$20,000.

Mr. Butler's opinion it placed a premium on dishonest contractors contracting. It was a most extraordinary act in his opinion.

The following resolution was moved by the chair and carried: "That having regard to the present unsatisfactory and confused state of the lien law, and to the confusion of the judiciary, it is desirable that a state should be made."

This meeting hereby appoints a committee consisting of Mr. J. D. McKinnon, Stuart, E. Butler, J. F. Child, A. M. Grogan, W. G. Brockbank and J. H. McLeod, to be nominated by the Builders' Trades Council, to act on the matter.

The idea of the appointment of the committee is that the question of the present law should be taken into consideration and the committee be held later should receive and consider the recommendations of the committee as to the proposed changes.

Mr. Child suggested that the plan of the committee should be that the committee be filed with the city building inspector and might be subject to inspection at all times as a measure of protection.

Chairman Butler gave as an instance of his own firm's practice that they didn't propose to do anything whereby an owner could have his property built up and then be left with a broken and reasonable cost.

At present, he said, the unpaid balance of the bill is subject to inspection at all times as a measure of protection.

Mr. J. B. Cushing spoke on the subject, but said he was looking for information on the subject at the meeting.

The general opinion of the meeting was in favor of a change in the act. The chairman stated that the lien act protected a man who supplied the material for the job it served the purpose of all. At the present moment it was not worth a rag.

The appointment of the committee to undertake the work of reporting on the suggested amendments to the act concluded the meeting.

THE KAISER'S EMOLUMENT.

Is to Be Increased—He Receives Nothing as Emperor.

Berlin, April 1.—An authentic report is in circulation here that there soon will be introduced in the Prussian diet a bill raising the civil list of the Emperor. The list amounts to \$2,500,000 a year, which is paid to the Emperor as the King of Prussia, as German emperor, a position which carries a salary. The explanation offered for raising the civil list is the increase in the cost of living, which is particularly heavy in the royal house because of the number of children and other persons are dependent upon the purse of the emperor.

In this connection it was learned today that the reports that the emperor has lived in the most frugal and often called upon rich friends for temporary loans are incorrect. On the contrary, His Majesty up to several years ago, saved each year a considerable sum from his income and invested it for his children.

Under Earl Grey's Patronage. Ottawa, April 1.—The Excellency Earl Grey has extended his patronage to the festivals of cathedral music to be sung by the church chorists throughout the country. Under the patronage of His Frederick Rector of Westminster Abbey, the cathedral choir will sing at the festival of St. George's day, which leaves England for Canada, April 19th.

BOMB WRECKED BED

Of Marked Man—Enemy of Miners' Federation Ran Escape.

Telluride, Cal., April 1.—Former Adjutant General Bailey Wells was narrowly escaped assassination by dynamite precautions against such an attempt, such as patrol and are lights about the house, a stick of dynamite or a prepared bomb was placed under the bed of the bed. The General was sleeping, as was his habit, on an outer porch and was hurried away from the wrecked house. The side of the house was torn completely out, and a stick of the bed room and fragments of wood were scattered about the neighborhood. Although his bed was shaken up, General Wells said he was unharmed and was not injured.

General Wells took a leading part in the suppression of labor troubles in this state in 1904 and 1905, and was prominently identified with the recent prosecution of the officers of the Western Federation of Miners at Boise on the charge of complicity in the assassination of Governor Frank Steiwer.

He had been active also in securing the extradition from Idaho of Steve Adams, who is to be tried for the charge of murder in connection with the miners' strike in 1904.

A POWDER SHIP IN A FIERCE STORM

Tampico, Bringing Dynamite from San Francisco to Seattle, Has Almost All of Powder in Safe.

Seattle, April 1.—With her hold a stinky mass of lubricating oil, smothered in dynamite, and a total loss of her starboard lifeboat swung away and other things, the powder ship Tampico of the Pacific Coast Steaming Company arrived in port yesterday from San Francisco after a most eventful voyage.

The ship was carrying a cargo of about 100 tons of dynamite, and some 500 tons of oil. The dynamite was stored in the hold, and the oil was in the tanks.

The ship was struck by a fierce storm, and the waves were high over the ship. The ship was almost lost, but was saved by the crew.

A black and white illustration of a man in a suit and hat standing next to a large, ornate floral arrangement. The man is wearing a light-colored suit, a dark tie, and a fedora-style hat. He is holding a small object in his right hand. The floral arrangement is large and features various flowers, including what appears to be a large lily or tulip, and is decorated with ribbons and leaves. The background is plain white.

A black and white portrait of a man wearing a bowler hat and a suit, looking slightly to the right. The image is framed within a rectangular border.

s, with the exception of metal parts, are all listed in the Bulletin.
